**Reasons for Allowance**

The patent to Furudate (4,634,830) is cited to show a prior art welding power supply (for resistance welding) with control based on a real time power factor signal. The patent to Church et al. (6,023,037) is cited to show a prior art arc welding power supply with a power factor module.

The following is an examiner's statement of reasons for allowance: none of the prior art of record teaches or suggests an arc welding apparatus or method with control of either background current or of peak current on the basis of real time or actual power factor as set forth in the claims.

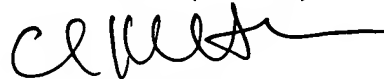

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication should be directed to Clifford C Shaw at telephone number 571-272-1182. The examiner can normally be reached on Monday through Friday of the first week of the pay period and on Tuesday through Friday of the second week of the pay period.
